

Baku, Azerbaijan

Azerbaijan is a petro-state with oil and gas accounting for 89% of its nearly \$40 billion in annual export revenue.

DEMAND RIGHTS AT

COP

#DemandRightsAtCOP

Azerbaijan, host of COP29, is suffering from an unprecedented environmental and human rights crisis.

The fossil fuel industry has a suffocating grip on the country's economy and the authoritarian government is cracking down on independent civil society.

Join us in demanding rights at COP.

Sincerely,
